

# Survey on responsible consumption

results

# Survey information

---

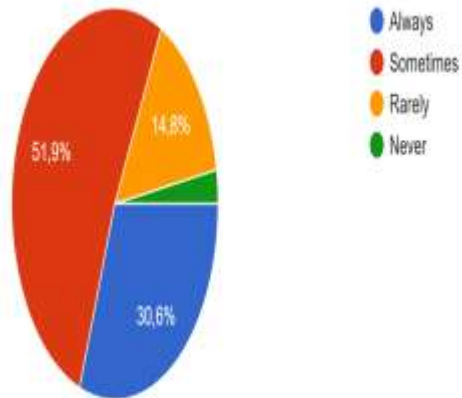

- The survey was conducted as part of the e-Twinning project *PLANet B: Responsible Consumption*, a collaboration project between Miguel de Cervantes Bilingual Theoretical High School (Bucharest, Romania) and Othisi High School (Athens, Greece).
- The questions were proposed by the students participating in the e-Twinning project, who worked in mixed-nationality groups on TwinSpace and exchanged views on the suggested items.
- A google form was created and shared with students of both schools.
- The results are based on the answers given by 108 Romanian and 138 Greek students, aged 13-18.
